

Organization of the Tutorial notes

Frédérique Galisson

July 16, 2000

These notes are organized in six parts:

1. Contents of the Tutorial.
2. Suggested books.
3. Copies of the transparencies.
4. Review on pairwise sequence comparison to which refers the first part of the Tutorial.
5. Review on the Fasta and Blast programs to which refers the second part of the Tutorial.
6. Review from Terri Attwood, about pattern databases, that develops some aspects of the third part of the Tutorial.
